Opis

<http://torquebox.org/>

TorqueBox is the ninja-grade Ruby application platform integrating popular technologies such as Ruby-on-Rails, while extending the footprint of Ruby applications to include support for Job Scheduling, Task Queues, SOAP Handling, and Telecom.

TorqueBox provides an all-in-one environment, built upon the latest, most powerful JBoss AS Java application server. Functionality such as **clustering** and **cloud deployment** is included right out-of-the-box.
